In the article, “Management of Penetrating Injuries to Carotid Artery,” by David V. Feliciano, because of an electronic production error, Figures 5 and 6 were transposed in the PDF and print

versions of the article. Figures 5 and 6 and their legends appear below. We regret the error.

Fig. 5. Right internal carotid artery-jugular vein fistula at base of skull from gunshot wound.

Fig. 6. Occlusion of right internal carotid artery by gunshot wound in patient who was neurologically intact (courtesy of M. Margaret Knudson, M.D., San Francisco General Hospital).
