Correction to: Current Microbiology (2017) 74:1137–1147
<https://doi.org/10.1007/s00284-017-1296-9>

The original version of this article contained errors in the description of novel species. These errors are corrected with this corrigendum.

The corrected version is given below.

Description of *Fusobacterium nucleatum* Knorr 1922 [20]

Basonym: *Fusobacterium nucleatum* subsp. *nucleatum* (Knorr 1922) Dzink et al. 1990 [7]

The properties are as given by Dzink et al. [7] and Gharbia and Shah [12]. The type strain is ATCC 25586^T (=DSM 15643^T).

The original article can be found online at <https://doi.org/10.1007/s00284-017-1296-9>.

Description of *Fusobacterium polymorphum* sp. nov.

Fusobacterium polymorphum: po.ly.mor'phum. N.L. neut. adj. *polymorphum*, multiform, polymorphic

Basonym: *Fusobacterium nucleatum* subsp. *polymorphum* Dzink et al. [7]

The properties are as given by Dzink et al. [7] and Gharbia and Shah [12]. The type strain is ATCC 10953^T (=DSM 20482^T).

Description of *Fusobacterium vincentii* sp. nov.

Fusobacterium vincentii: vin.cen'ti.i. N.L. gen. masc. n. *vincentii*, of Vincent, referring to H. Vincent who studied the organism originally isolated from Vincent's angina and necrotizing ulcerative gingivitis.

Basonym: *Fusobacterium nucleatum* subsp. *vincentii* Dzink et al. [7]

The properties are as given by Dzink et al. [7]. The type strain is ATCC 49256^T (=DSM 19507^T).

Description of *Fusobacterium animalis* sp. nov.

Fusobacterium animalis: a.ni'mal.lis. L. neut. n. animal (gen. *animalis*), an animal; L. gen. n. *animalis*, of an animal.

Basonym: *Fusobacterium nucleatum* subsp. *animalis* Gharbia and Shah, 1992 [13].

The properties are as given by Gharbia and Shah [13]. The type strain is ATCC 51191^T (=DSM 19679^T).
