Correction to: *Current Genetics*
<https://doi.org/10.1007/s00294-021-01208-w>

In the original publication of the article, it states the Accession number is pending at two locations. This has been corrected here.

1. Last line in Materials and Methods under the section "Identification and functional annotation of putative pathogenicity factors". It states: The annotated genome, including predicted proteins is now available on GenBank under the accession number: RIBY02000000.

2. Last line under Data availability it states: study is available on GenBank (<https://www.ncbi.nlm.nih.gov/genbank/>) under the accession number: RIBY02000000.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

The original article can be found online at <https://doi.org/10.1007/s00294-021-01208-w>.
