Erratum to: Plant Cell Rep DOI 10.1007/s00299-010-0996-4

In the original version of the article, some of the significance values were accidentally omitted in the fifth column of Table 3. The correct version of the table is given in the following page.

The online version of the original article can be found under doi: [10.1007/s00299-010-0996-4](https://doi.org/10.1007/s00299-010-0996-4).

Mean values ($\pm$ standard errors) with different superscript letters (a, b, c, d, e and f) indicate significant different ($P < 0.05$)

^A Number of *Agrobacterium* infected banana suckers

^B Number of suckers responded to shoot induction after *Agrobacterium* infection, % (responded percentage), B/A $\times$ 100

^C Total number of shoots formed from the suckers after *Agrobacterium* infection

^D Number of GUS positive shoots identified after GUS assay

^E Percentage of Gus positive shoots: D/C $\times$ 100. Mean values of three independent experiments $\pm$ standard errors
