Correction to: European Radiology (2019) 29:4754–4764
<https://doi.org/10.1007/s00330-019-06244-2>

The original version of this article, published on 11 June 2019, unfortunately contained a mistake. The following correction has therefore been made in the original: In section “Multiparametric MRI review,” the readers mentioned in the first sentence were partly incorrect. The correct wording is as follows: “Mp-MRI images were qualitatively assessed on an OsiriX workstation by three board-certified radiologists independently (readers SP, MA, and FG).”

Publisher’s note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

The online version of the original article can be found at <https://doi.org/10.1007/s00330-019-06244-2>
