Correction to: Eur Radiol (2014) 24:2719–2728

<https://doi.org/10.1007/s00330-014-3329-0>

The original version of this article, published on 24 July 2014, unfortunately contained a mistake. In section “Discussion,” a sentence was worded incorrectly. The correct wording is the following: “In the NLST, a 4-mm size threshold yielded a positive screen rate of 24.2%, with a 96.4% false discovery rate.”

The online version of the original article can be found at <https://doi.org/10.1007/s00330-014-3329-0>
