Correction: Vegetation History and Archaeobotany <https://doi.org/10.1007/s00334-024-00987-9>

The sentence “Based on the pollen spectra, the Herning stadial may be subdivided into two pollen subzones, a preceding subzone WF IIIa dominated by *Calluna* and poor in *Poaceae* followed by subzone WF IIIb, rich in *Poaceae*, *Artemisia* and other herbs.” appearing in the second paragraph under the section “**Interpretation**” in the original article should have read “Based on the pollen spectra, the Herning stadial may be subdivided into two pollen subzones, a preceding subzone WF Ia dominated by *Calluna* and poor in *Poaceae* followed by subzone WF Ib, rich in *Poaceae*, *Artemisia* and other herbs.”

The original article has been corrected.
