

F.J. DUARTE[✉]

Multiple-prism dispersion equations for positive and negative refraction

Interferometric Optics, P.O. Box 26592, Rochester, NY 14626, USA

Published online: 28 July 2006 • © Springer-Verlag 2006

In a recent paper by Duarte [1] the sentence following (8) which now reads: “The same outcome is obtained for the case of incidence below the normal and refraction below the normal” should read “The same outcome is obtained for the case of incidence *above* the normal and refraction below the normal.”
