<https://doi.org/10.1007/s00348-020-03037-y>

In the original article the expression for Eq. (1) is partly missing. The correct Eq. (1) should read:

$$M(t) = M(0) \exp(i\omega_0 t) \quad (1)$$

It must also be mentioned that this expression is in complex coordinates and concerns the spin component in the plane perpendicular to $\mathbf{B}_0$, while the component along $\mathbf{B}_0$ remains constant.

The original article can be found online at <https://doi.org/10.1007/s00348-020-03037-y>.
