Unfortunately a few author corrections were not carried out. The correct mathematical terms are shown below:

In the second line after Eq. (5) $Y(x, \beta_i)$

Assumption 1 $e^{-\frac{1}{1+\beta}} < x_L < m < x_R < e^{-\frac{1}{1+\beta}}$

In the fourth line above Eq. (8) $Y(x, \beta_i) > Y(x, \beta_j)$

In the second line above Eq. (8) $Y(x, \beta_i) > Y(x, \beta_j)$
