Correction to: Biology and Fertility of Soils
<https://doi.org/10.1007/s00374-019-01374-7>

The publisher regret that the above article originally published with an error present in Table 1. The data “−18 °C” under the Storage temperature column in the third row and the last row of the Table 1 were mistakenly omitted. The corrected Table is shown as follows:

The original article has been corrected.

Table 1 Details of the treatments and mean values and standard deviation of soil respiration rates at 25 °C (SR₂₅) and Q10 values. In each column, values with different letters are significantly different (p<0.05)

Treatment	Sieving	Storage time	Storage temperature	Independent samples	Replicates per sample	SR ₂₅ (μg CO ₂ h ^{−1} g ^{−1} soil)	Q10 value
Control	No	No	—	14	5	3.04 ± 1.64 ^a	2.20 ± 0.23 ^{ab}
Sieved/non-stored	Yes	No	—	14	3	3.38 ± 1.62 ^a	1.94 ± 0.28 ^b
Sieved/freeze-storage	Yes	7 weeks	−18 °C	14	3	3.57 ± 1.71 ^a	1.94 ± 0.23 ^b
Sieved/cold-storage	Yes	7 weeks	4 °C	14	3	2.57 ± 1.15 ^a	2.37 ± 0.29 ^a
Sieved/dry-storage	Yes	7 weeks	40 °C	14	3	6.46 ± 3.07 ^b	1.94 ± 0.40 ^b
