Dear Editor,

Our previous article, “The clinical experience of medulloblastoma treatment and the significance of time sequence for development of leptomeningeal metastasis”, was published in *Child Nervous System* 2008 Dec; 24 (12): 1463–1467. Some efforts, especially data analysis,

were contributed by colleagues in our associated institution. The full title of the contributing institutions should be: “Chang Gung Memorial Hospital, Chang Gung University and Medical College”, and we would like to make this announcement for their efforts.

Best regards,

P.-C. Hsieh (✉)
