Acknowledgement to Editors and Scientific Referees 2017

A scientific journal's greatest responsibility is to ensure that all contributions accepted for publication are rigorously but fairly reviewed. The Editor-in-Chief and Springer gratefully acknowledge the qualified and regular collaboration of renowned scientists who kindly devoted their time to constructively review the submitted articles. Their expertise and invaluable assistance contributed to maintain a high scientific standard for the Journal. We are thus indebted to the Editorial Board members and the following experts who reviewed papers and completed the peer-reviewing process within 2017.
