Retraction Note to:

Pediatr Surg Int (2003) 19(5):385–390

<https://doi.org/10.1007/s00383-003-1016-3>

The Editors-in-Chief have retracted this article because parts of Fig. 1 apparently overlap with parts of Fig. 2, and in addition parts of Fig. 1 appear to be duplicated from parts of Fig. 2 in a previously published article [1]. Author Igor Sukhotnik does not agree to this retraction. Authors A. Semih Gork, Min Chen, Robert A. Drongowski, Arnold G. Coran, and Carroll M. Harmon have not responded to any correspondence from the publisher about this retraction.
