

- acute cardiac tamponade 471
acute chest pain 447
acute ischemic aortic dissection 447
acute renal failure 194, 396
acute respiratory failure 182
adult Beri-Beri 98
alcohol abuse 98
alcohol/drug emergencies 55
alveolar capillary dysplasia 12
anticoagulation 277
antithrombin 51
aortic dissection 447
aortic dissection type A 471
APACHE II 133
ARDS 476
Aspergillosis 330
assist device 287
Austria 282
autonomic nervous system 121
av-fistula 37
- biphasic 77
bradycardia 263
bronchopulmonary sequestration 12
Brugada syndrome 321
burn injury 321
burns 154
- C-reactive protein 64
carbon monoxide poisoning 391
carboxyhemoglobin 391
cardiac arrest 277
cardiac arrest 82, 287, 440
cardiac nuclear magnetic resonance imaging 447
cardiogenic shock 381, 463
cardiopulmonary resuscitation 440
catastrophe 40, 293
catecholamine therapy 381
causality therapy 55
caval filter 277
CCAML 12
central venous catheter 37, 142
chloride depletion 396
chronic ventilatory insufficiency 182
circulation failure 98
circulatory assist devices 381
classification 369
colitis 326
complications 70, 142, 391
congenital diaphragmatic hernia 12
congenital lobar emphysema 12
congenital lung malformations 12
continuous renal replacement therapy 194
cooling device 26
coronary perforation 104
critical care medicine 369
CRP 330
- D-dimer 471
decision making 70
defibrillation 77, 287
- disaster 40, 293
disaster plan 40, 293
disease severity 205
disseminated intravascular coagulation 31
doxepin 121
driving limitations 402
Drotrecogin alfa (activated) 154
- echocardiography 277, 447
echocontrast media 104
ECMO 111
electrical storm 313, 321
embolisation 19
emergencies in internal medicine 212
emergency care units 282
emergency department 212
emergency medicine 212, 282
emergency plan 40, 293
endovascular treatment 37
- fever 321
- gastrointestinal bleeding 31
geriatric patients 89
- haemodynamics 337
heart failure 381
heart rate variability 121
heat stroke 31
heparin 51
herpes simplex virus 326
HES 427
HFOV 476
hip fracture 89
hospital emergency plan 145
hospital mortality 89
hospital units 282
hydroxyethyl starch 255
hyperbaric oxygenation 391
hypoglycemia 255
hypovolemia 396
- IABP 463
idiopathic ventricular fibrillation 313
ILCOR 26
immunosuppression 326
incessant ventricular tachycardia 313
indocyanine-green 413
initial care hospital 40, 293
intensive care 1, 70, 337
intensive care medicine 167, 171, 217
intensive insulin therapy 255
intensive therapy 330
interleukin-6 64
interventional therapy 19
intoxication 121
intra-hospital emergencies 217
intramedullary nailing 70
invasive ventilation 476
- laboratory parameter 64
lactacidosis 98
12-lead surface ECG 447
- liver function 413
liver functions test 413
- MA Gerontology 51
malposition 142
mass casualty 40, 293
MDCT 19
mechanical ventilation 133, 391
medical emergency team 217
medical rescue task force 40, 293
metabolic alkalosis 396
microcirculation 205
mild hypothermia 82
monitoring 337, 413
monophasic 77
mortality 255
multi-slice computer tomography 471
multiorgan dysfunction 31
multiorgan failure 326
multiple injured patient 19
Multiple trauma 70
myocardial infarction 463, 471
myocarditis 287
- NAVA 476
neonatal ARDS 111
NIV 133
noninvasive mechanical ventilation 182
nuclear, biological, chemical disasters 145
- organ failure 205
organic psychosis 369
outcome 1, 171, 440
oxygenation index 111
- pacemaker complications 402
percutaneous coronary intervention (PCI) 104
pericardial tamponade 104
pericardiocentesis 104
pharmacotherapy 205
physiology 337
polytrauma 64
potassium depletion 396
prehospital 82
prevention 205
procalcitonin 64, 330
process 1, 171, 440
prognosis 167, 440
protective ventilation 476
proton pump inhibitor 396
psychiatric psychosomatic emergencies 55
pulmonary embolism 277
pulmonary vein 142
- qualitative impairment of consciousness 369
quality management 1, 171
quantitative impairment of consciousness 369
