Correction to: *Clinical Research in Cardiology* (2022) 112:1738–1747  
<https://doi.org/10.1007/s00392-022-02048-5>

After the publication of this article, the authors have asked us to give some clarification to the Materials and Methods section and the Declarations. In detail:

### Material and methods – Study population

Instead of

“The study was approved by the local ethics committee of the Isala Hospital.”

it should read

“A non-WMO (Dutch law on Research Involving Human Subjects Act) declaration was received from the local Ethics Committee of the Isala Hospital in Zwolle, the Netherlands.”

Instead of

“The referring cardiologist and electrophysiology team decided whether the patient was eligible for LBBAP.”

it should read

“The referring cardiologist and an electrophysiologist or electrophysiology team decided whether the patient was eligible for LBBAP.”

### Declarations:

Instead of

“Approval was granted by the local Ethics Committee of the Isala hospital.”

it should read

“A non-WMO (Dutch law on Research Involving Human Subjects Act) declaration was received from the local Ethics Committee of the Isala Hospital.”

Instead of

“All the participants gave their consent for the procedure and to collect data from the electronic patient file for research purposes.”

it should read

“All the participants gave their consent for the pacemaker implantation and did not object to collecting data from the electronic patient file for research purposes. Written consent for data collection has not been obtained.”
