Erratum to: Eur J Nutr
DOI 10.1007/s00394-015-0896-z

The authors regret the errors occurred in the abstract of the original publication. The first sentence in the Conclusions section, “Higher intake of dietary vitamin C, folate, and vitamin E may be related to high baPWV” should read “Lower intake of dietary vitamin C, folate and vitamin E may be related to high baPWV”.

Unfortunately, a typographical error was also found in the Results section the fourth sentence in the last paragraph

“For *ZNF618* rs10817542-folate intake interactions, the mean baPWV of them in allele homozygote (AA)-T1 group was significantly higher than” should be corrected to “For *ZNF618* rs10817542-folate intake interactions, the mean baPWV of the minor allele homozygote (AA)-T1 group was significantly higher than”.

The online version of the original article can be found under doi:[10.1007/s00394-015-0896-z](https://doi.org/10.1007/s00394-015-0896-z).
