Correction to: European Journal of Nutrition
<https://doi.org/10.1007/s00394-022-02913-z>

The original version of this article unfortunately contained a mistake. The corrected details are given below for your reading.

In Table 1, in the first column the second bread is named as α -CDB, not -CDB

The title of Figure 2 is incorrect. The proper title of Fig. 2 is: Glycaemic index (GI) of the three breads compared to the glucose solution. Values are expressed as mean \pm SEM. * $P < 0.05$, the three breads compared to GS. † $P < 0.05$, (HT + α -CD)B compared to WB. ‡ $P = 0.06$, α -CDB compared to WB

The title of Figure 3 is incorrect. The proper title of Fig. 3 is: Responses of glucose (a), insulin (b), ghrelin (c) and GLP-1 (d) for 180 min after the consumption of the three breads and the solution of glucose. Values are expressed as mean \pm SEM ($N = 10$). * $P < 0.05$, (HT + α -CD)B compared to GS. † $P < 0.05$, α -CDB compared to GS. ‡ $P < 0.05$, WB compared to GS. †† $P < 0.05$, (HT + α -CD)B compared to α -CDB. ‡‡ $P < 0.05$, (HT + α -CD)B compared to WB. a $P = 0.090$, α -CDB compared to WB. b $P = 0.052$, (HT + α -CD)B compared to α -CDB (marginally significant difference)
