Correction to: Archives of Orthopaedic and Trauma Surgery
<https://doi.org/10.1007/s00402-021-04173-8>

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

The original version of this article unfortunately contained a mistake. "Personal experience" section at the end of the paper appears twice (in two nearly identical copies).

In the section "Personal experience", third sentence of the second paragraph should read as

This author has performed 766 TKA's (all CR constraint with patella always resurfaced) using the OMNIBot, with overall 99.48% survivorship at 6 year follow-up.

The original article has been corrected.

The original article can be found online at <https://doi.org/10.1007/s00402-021-04173-8>.
