### Correction to:

**Archives of Gynecology and Obstetrics (2018)**  
**297:951–959**  
<https://doi.org/10.1007/s00404-018-4664-1>

After publication of this article [1] the authors were made aware that the citation of [2] had been omitted from the end of the following sentence:

“Each female sets her experience of 47 manifestations on a 6 point scale separately for the premenstrual, menstrual, and intermenstrual phases of her latest and worst menstrual cycle. Daily Symptoms Report was filled at the start and at the end of the study (before and after performing swimming exercise) (Fig. 1)”.

Figure 2 has been removed from this article for legal reasons.
