Correction to: International Journal of Legal Medicine 2019
<https://doi.org/10.1007/s00414-019-02062-9>

The published version of this article unfortunately contained a mistake. In Figure 1 on the molecular network of acebutolol, two molecular structures are not displayed (“acebutolol glucuronide” and “impurity J”). The Figure is corrected here.

Publisher's note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

The online version of the original article can be found at <https://doi.org/10.1007/s00414-019-02062-9>
