

In J Neurol (2002) 249:437–440 we published an original contribution “Bradykinesia in Huntington's disease. A prospective, follow-up study” by Pedro J. García Ruiz et al. Unfortunately a wrong reference list happened to be published with this paper. The correct list is to be found below.

In J Neurol (2002) 249:345 we published a letter to the editors “Botulinum toxin for treatment of masseteric hypertrophy” and by accident we only gave the first author's name and omitted the co-authors name. The two authors are Dr. A.C.F. Hui, Department of Medicine & Therapeutics, and Dr. W.S. Ho, Department of Surgery, from the Prince of Wales Hospital in Hong Kong.
