Non-linear dynamic response of a single wall carbon nonotube subjected to radial impulse (by H.L. Dai; X. Wang)

Published online: 1 February 2008
© Springer-Verlag 2008

**Erratum to: Arch Appl Mech (2006) 76:145–158
DOI 10.1007/s00419-006-0011-2**

Parts of this article were taken from the paper of I.K. McIvor entitled: “The elastic cylindrical shell under radial impulse.” ASME J. Appl. Mech. (1966) 33:831–837 without giving proper credit due to the mistaken substitution for references.

The online version of the original article can be found under doi:[10.1007/s00419-006-0011-2](https://doi.org/10.1007/s00419-006-0011-2).
