Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

In Fig. 1, in the bottom graph representing individuals working from home all the time (N = 211), the correct percentage of individuals younger than 30 years who reported worse quality of life is 27.6%, not 37.6%. This error does not alter the main results, interpretation of the data or the authors' conclusions. The Journal and the authors regret the error.
