The original publication of the article includes some errors which should be corrected as given below.

In “Methods”, the IL-10 sensitivity is provided for both “30.9 pg/mL” and “0.5 pg/mL” beneath the subheading “CK activity, cytokines, PGE₂ and hormone”. The correct value should read “0.5 pg/mL”.

In Tables 3 and 4 in “Results”, the double *asterisks* are incorrectly inserted both in tables and in the footnotes denoting value “*** $p < 0.01$ ”. It should read as single *asterisk* in both cases “* $p < 0.05$ ”.
