### Correction to: European Journal of Pediatrics

<https://doi.org/10.1007/s00431-020-03848-5>

The authors regrets that the original version of the above article contained an error in a patient's mutation analysis. In their original manuscript, they stated that “G428A” was a novel PHOX2B mutation; however the mutation had been incorrectly reported by the laboratory. The correct mutation for that subject is “A428G”.

The original article remained unchanged.

**Publisher's note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
