### Erratum to: J Cancer Res Clin Oncol DOI 10.1007/s00432-007-0326-6

Owing to a systemic error, some of the data in Table 1 were incorrect. The text referring to Table 1 presents the correct values. The revised version of Table 1 is given here.

The online version of the original article can be found under doi: [10.1007/s00432-007-0326-6](https://doi.org/10.1007/s00432-007-0326-6).

**Table 1** Included and excluded patients according to the final diagnosis

Final diagnosis	CEUS performed	Excluded from study evaluation	Included in study evaluation
Pancreatic cancer	154	84	70
Neuroendocrine tumour	82	57	25
Serous microcystic adenoma	16	2	14
Lymphoma	8	8	0
Acinus cell carcinoma	3	3	0
Mucinous cystadenoma or cystadenocarcinoma	16	16	0
Intraductal papillary mucinous neoplasia	5	5	0
Autoimmune pancreatitis	3	0	3

Exclusion criteria were: no sign of chronic pancreatitis, cystic lesion > 20 mm, no active hormone production of the tumour, multiple lesions, metastasis, allergic reaction to SonoVue
