The Editors-in-Chief have retracted this article. Concerns were raised regarding a number of images, specifically:

- Fig. 5 appears to overlap with Fig. 6 of (Govindarajan and Benelli 2016)
- Fig. 6 appears to be identical to Fig. 3 of (Govindarajan and Benelli 2016)

Additionally, the article shows significant overlap with a number of previously published articles (Muthukumaran et al. 2015a, b, c).

S.L. Hoti, Heinz Mehlhorn and Giovanni Benelli agree to this retraction. Marimuthu Govindarajan, Mohan Rajeswary, Kaliyan Veerakumar, and Donald R. Barnard haven't

responded to correspondence regarding this retraction. The editor was not able to obtain a current email address for Udaiyan Muthukumaran.
