Unfortunately, the publisher printed some of the formulas in the Appendix on page 261 with errors. The correct equations are given here.

$$\frac{d\text{Gln}}{dt} = \frac{F_2}{V} \text{Gln}_{\text{in}} - \frac{(F_1 + F_2)}{V} \text{Gln} - q_{\text{gln}} X_V$$

$$\frac{d\text{Lac}}{dt} = q_{\text{lac}} X_V - \frac{(F_1 + F_2)}{V} \text{Lac}$$

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00449-005-0415-3>
