In the original publication, table captions 6 and 7 were incorrectly published. The correct captions are given here.

Table 6 Production of lactobionic acid at different bioconversion scales using 20 g/L of *Zymomonas mobilis* cells immobilized on calcium alginate.

Table 7 Results of bioconversion runs performed with *Zymomonas mobilis* immobilized with calcium alginate, with and without pretreatments with CTAB cells and glutaraldehyde, at the initial moment and after 120 days of storage.

The original article can be found online at <https://doi.org/10.1007/s00449-020-02323-7>.
