Correction to: Algorithmica (2016) 74:1293–1320

<https://doi.org/10.1007/s00453-015-0002-1>

In Theorem 8 of our article “Outer-1-Planar Graphs” (Algorithmica 74(4), pp. 1293–1320, [1]), we erroneously claim that every outer 1-planar graph admits a planar visibility representation in $\mathcal{O}(n \log n)$ area. This statement has recently been disproved by Biedl (GD 2020, LNCS 12590, pp. 526–528, [2]), who showed that there are outer 1-planar graphs with an area requirement of $\Omega(n^2)$ in any planar polyline drawing. The other results of our article remain unaffected.

The original article can be found online at <https://doi.org/10.1007/s00453-015-0002-1>.
