There was a typographical error in the Table 2: Penetration-aspiration scale. The corrected table follows:

Table 2 Penetration-aspiration scale

Function	Category	Score	Description
Normal	Penetration	1	Material does not enter airway
		2	Material enters the airway, remains above the vocal folds, no residue
Disordered	Penetration	3	Material remains above vocal folds, visible residue remains
		4	Material contacts vocal folds, no residue
		5	Material contacts vocal folds, visible residue remains
	Aspiration	6	Material passes the vocal folds, no subglottic residue visible
		7	Material passes the vocal folds, visible residue remains despite patient's response
		8	Material passes the vocal folds, visible residue remains, no patient response
