A spectral alternating method for elastostatic problems with multiple spherical cavities

Published online: 20 September 2005
© Springer-Verlag 2005

Unfortunately, a few errors were printed in the original version. In the second expression on the second line below Eq. 3 and again, at the beginning of Eq. 5, ψ should have been a capital in italics. (Ψ)

At the end of the paragraph under Eq. 17, the ij should be over the t and should not be a superscript. The legend to Fig. 7 was incorrect and the publisher apologizes for this error. The correct legend is shown here.

Fig. 7. A contour of $\sigma_{yy}/\sigma_{yy}^{(0)}$ in the y-z plane around the 11th cavity
