Anatomical wood variation of *Buddleja cordata* (Buddlejaceae) along its natural range in Mexico

Published online: 4 January 2006
© Springer-Verlag 2006

DOI 10.1007/s00468-007-5

Due to an unfortunate error on the part of the publisher the above article was published without the following final corrections by the author:

On page 2, right, line 5: “argentinean” should be “argentina”

On page 2, Table 1: The line under “Plant and location” should extend from “H” to “E” and that under “Climate” variables should extend from “MAT” to “RDQ”. In line 11, column 11, the value for Tlaxcala ATR should be “23” instead of “23.1”.

On page 6, right column, third paragraph, line 7: “Garcia” should be deleted.

On page 9, in the reference by Villagra and Roig-Junent, “y” should read: “and”.

On page 7, Fig. 4 was rendered incorrectly. Here is the correct figure:

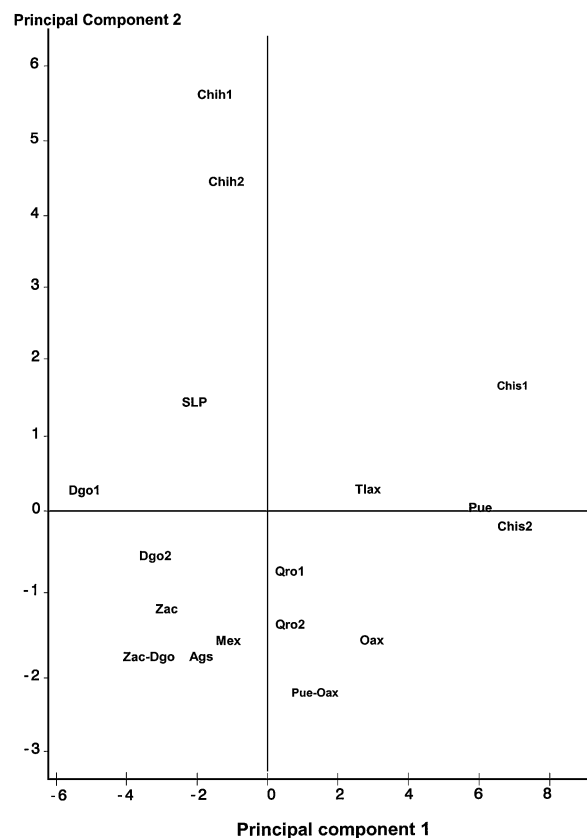

Fig. 4. Principal component analysis based on wood, climate, and soil variables, plotted for provenances where individuals of *B. cordata* were collected; see Table 1 for provenance information. Provenances: Chih1 = Chihuahua 1, Chih2 = Chihuahua 2, Dgo1 = Durango 1, Dgo2 = Durango 2, Dgo-Zac = Durango-Zacatecas, Zac = Zacatecas, Ags = Aguascalientes, SLP = San Luis Potosí, Qro1 = Queretaro 1, Qro2 = Queretaro 2, Tlax = Tlaxcala, Mex = Mexico, Pue = Puebla, Pue-Oax = Puebla-Oaxaca, Chis1 = Chiapas 1, Chis2 = Chiapas 2
