Correction to: Trees (2018) 32:1669–1680
<https://doi.org/10.1007/s00468-018-1742-8>

A typographical error in the step-by-step procedure on page 1677 would lead to incorrect estimations of stem biomass.

In the formula to compute the curvature coefficient (C_{curv}) in step 3, in the left column of page 1677, a “plus” sign should be replaced by a “minus” sign.

The correct formula is: $C_{\text{curv}} = 0.84 \times [\ln(1 + H33/0.6) - H33/2.1]$.

All the other steps are correct.

The original article can be found online at <https://doi.org/10.1007/s00468-018-1742-8>.
