**RETRACTION NOTE**

# Retraction Note: An improvised video coding algorithm for deep learning-based video transmission using HEVC

A. Srinivasan[1] · G. Rohini[2]

**Retraction to: Soft Computing (2019) 23:8503–8514**
https://doi.org/10.1007/s00500-019-04093-1

The Editor-in-Chief and the Publisher have retracted this article. This article was submitted to be part of a guest-edited issue. An investigation concluded that the editorial process of this guest-edited issue was compromised by a third party and that the peer review process has been manipulated. Based on the investigation's findings the Editor-in-Chief therefore no longer has confidence in the results and conclusions of this article. A. Srinivasan disagrees with this retraction. G. Rohini has not responded to correspondence from the Publisher about this retraction.

**Publisher's Note** Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

The original article can be found online at https://doi.org/10.1007/s00500-019-04093-1.
