Retraction Note to: Neural Comput & Applic (2013) 23:417–427
<https://doi.org/10.1007/s00521-012-0934-1>

The Editor-in-Chief has retracted this article [1] because it significantly overlaps with a number of articles including those that were consideration at the same time [2] and previously published articles [3–6]. Additionally, the article shows evidence of peer review manipulation. The authors have not responded to any correspondence regarding this retraction.
