Retraction Note to:
Neural Comput & Applic (2019)
31 (Suppl 2):S733–S741
<https://doi.org/10.1007/s00521-012-1082-3>

The Editor-in-Chief has retracted this article [1] because it significantly overlaps with a number of articles including those that were under consideration at the same time [2, 3] and previously published articles [4–6]. Additionally, the article shows evidence of peer review manipulation. The authors have not responded to any correspondence regarding this retraction.
