Retraction to: Neural Comput & Applic (2019) 31 (Suppl 2):S759–S766
<https://doi.org/10.1007/s00521-012-1136-6>

The Editor-in-Chief has retracted this article [1] because it significantly overlaps with a number of articles including those that were under consideration at the same time [2] and previously published articles [3–6]. Additionally, the article shows evidence of peer review manipulation. The author has not responded to any correspondence regarding this retraction.
