Correction to: Neural Comput & Applic (2012) 21:1651–1667
<https://doi.org/10.1007/s00521-011-0700-9>

The Editor-in-Chief has retracted this article [1] because it significantly overlaps with a number of articles including those that were under consideration at the same time [2] and previously published articles, including [3–6]. Additionally, the article shows evidence of peer review manipulation. The authors have not responded to correspondence regarding this retraction.
