Retraction Note to: Neural Comput & Applic (2013) 23:207–214
<https://doi.org/10.1007/s00521-011-0802-4>

The Editor-in-Chief has retracted this article [1] because it significantly overlaps with a number of articles including those that were under consideration at the same time [2] and previously published articles [3–6]. Additionally, the article shows evidence of peer review manipulation.

Alireza Khodabandeh agrees with this retraction but disagrees with the wording of the retraction notice. The other authors have not responded to correspondence regarding this retraction.
