In this article the note of Table 3 was incorrectly given as ‘The bold font indicates the related layers caption in Fig. 7, and italic font demonstrates the minimum receptive field requirement’ and should have read ‘The italic font indicates the related layers caption in Fig. 7, and bold font demonstrates the minimum receptive field requirement’.

In this article the notes for Tables 4 and 5 were incorrectly given as ‘Bold indicates the best results, and the second-best results are italic’ but should have been ‘Italic indicates the best results, and the second-best results are bold’.

The original article has been corrected.
