This special issue on “More than Moore Microsystems” consists of selected best papers presented “2018 IEEE Electron Device Kolkata Conference (2018 IEEE EDK-CON)” held in the Kolkata, India during November 24–25, 2018.

The conference covered broad topics on current developments and future trends in device technology and materials science for application in circuits and microsystems. Authors of selected papers from the conference were invited to submit full length papers for possible inclusion in this special issue of Microsystem Technologies (MST). All papers were refereed according to the rigorous journal standards. The review process was coordinated by guest

editors: Profs. Jyotsna Kumar Mandal and Angsuman Sarkar. Eighteen papers were accepted for publication in this issue.

We hope that readers find the papers in the issue to be informative.
