This special issue consists of selected papers presented at the 11th International Conference on Computing, Communication and Sensor Network, (CCSN) held on 23rd and 24th of September 2022 at the Department of Computer Science and Applications, Utkal University, Bhubaneswar, Odisha, India. The conference covered interdisciplinary areas of Computing, Algorithms, Wired and Wireless Communication, Sensors networks, and related devices and circuit designs. The conference provided a platform for the participants to share their views and ideas on latest technological developments.

Authors of selected papers from the conference were invited to submit full length papers for possible inclusion in

this special issue of Microsystem Technologies (MST). All papers were refereed according to rigorous journal standards. The review process was coordinated by guest editors, Dr. Debashis De and Prof. Dulal Acharjee. Eighteen papers were accepted for publication in this issue.

We hope that readers find the papers in the issue to be informative.

Prof. Bharat Bhushan  
Co-Editor in Chief, MST
