**Erratum to: Comp Clin Pathol**  
**DOI 10.1007/s00580-009-0827-6**

There are two errors in the Materials and methods section:

1. In the single sentence in the subsection “AMI assessment”, “serum” should be “plasma”. The correct sentence is: “The occurrence of AMI in rats was assessed by measuring plasma concentration of LDH, CK, and CK-MB before surgery (T0), and at 6 and 24 h following AMI induction.”
2. In the first paragraph of the subsection “Blood and plasma sample collection”, the weight range of the animals studied was given incorrectly. The correct sentence is: “Whole blood was collected from 50, 5-to 7-week-old (250–350 g body weight), male nude rats, strain Crl:NIH-Fox1rnu between the months of October and December, 2007.”
