The GRAMMER *European Spine Journal* Award 2015

In order to encourage basic science research in the field of Spinal disorders, the *European Spine Journal* is proud to announce the **20.000 Euro GRAMMER *European Spine Journal* Award** for basic science. Each paper submitted to the *Journal* dealing with basic science qualifies automatically for this award as soon as it has been published. The winning paper will be selected at the end of each academic year (for the next time in 2014/2015) and will be announced in one of the following issues. The GRAMMER Award will also be presented at the next EuroSpine meeting. At least one author of the winning paper must attend at his/her own expense the SpineWeek 2015 meeting which is being held in Copenhagen (Denmark) 2–4 September, to present the paper and receive the award.

The winning paper of the **GRAMMER *European Spine Journal* Award** for the best basic science paper published in the *European Spine Journal* in the last academic year 2013/2014 has been:

Microarray expression profiling identifies genes with altered expression in Adolescent Idiopathic Scoliosis

**Khaled Fendri,
Shunmoogum A. Patten,
Gabriel N. Kaufman, Charlotte Zaouter,
Stefen Parent, Guy Grimard,
Patrick Edery, Florina Moldovan**

Oswestry Disability Index website and translations

We have established a website for the ODI <http://www.orthosurg.org.uk/odi/>. One of its functions is to carry validated translations of the instrument for use by non-English speakers. Currently we have versions in 13 languages. We are sure there are others we have not listed. We need to know the version number that has been translated, validation process and any publications that have used it.
