Correction to: Eur Spine J (2017) 26:806–815
<https://doi.org/10.1007/s00586-016-4714-y>

The authors declare that when writing their article [1] they referenced two previously published papers [2, 3]. Several sentences on pages 807, 808, and 813 were similar to sentences from these two previously published articles. However, these papers were inadvertently not cited in the reference list by the authors. The authors state that both of the missing citations below [2, 3] should have been inserted in the original Reference section and added in the text as “20–23” in paragraphs 3, 4, 8, and 9 on page 807, and in the 1st paragraph on page 813. This corrigendum addresses the inappropriate citation and acknowledges the authors [2, 3] for their contribution to our publication [1].
