Jami, S.A., Zhou, Z., Mobarak, S.A. et al. Osteotomy in lateral position for correcting severe thoracolumbar kyphosis combined with hip flexion contracture in ankylosing spondylitis: a case report and literature review. *Eur Spine J* (2021). <https://doi.org/10.1007/s00586-021-06913-1>. The authors have retracted this article because its content

substantially overlaps with an unpublished manuscript by a different author group. In addition, the authors did not obtain consent from the patient for the publication of the case and accompanying images; the scientific content of the article has therefore been removed to protect the patient's privacy. All authors agree to this retraction.
