Correction to: Rock Mechanics and Rock Engineering
<https://doi.org/10.1007/s00603-018-1712-x>

This paper, not properly checked by the authors when receiving the proofs, is in need of corrections as indicated below.

1. In the second paragraph of Sect. 2.2.3 “**Solution case**”, the second sentence was written as: “The blue and red parts in Fig. 4 indicate the tensile areas, and the white parts indicate the compressive areas.”. It should be corrected as: “The blue and red parts in Fig. 4 indicate the compression areas, and the white parts indicate the expansion areas.”.
2. In the second paragraph of the title of Fig. 4, the second sentence was written as: “The red, blue and yellow arrows on the beachballs indicate the *P*-axis, *B*-axis and *T*-axis, respectively.”. It should be corrected as: “The red, blue and yellow arrows on the beachballs indicate the *T*-axis, *B*-axis and *P*-axis, respectively.”.
3. In the third paragraph of Sect. 2.2.3 “**Solution case**”, the first sentence was written as: “, and σ_1 , σ_2 and σ_3 have

azimuths and plunges of 77.5° and 90°, 65° and 0° and 155° and 0°, respectively.”. It should be corrected as: “and σ_3 , σ_1 , and σ_2 have azimuths and plunges of 77.5° and 90°, 65° and 0° and 155° and 0°, respectively.”.
