Correction to: Microchimica Acta (2019) 186: 157

<https://doi.org/10.1007/s00604-019-3270-7>

The published version of this article, unfortunately, contains error. Figure 2 image was available in the multiple submissions during reviewing of the manuscript. But during the final submission, the author was asked to provide the word document of the manuscript with good resolution of the images. During the preparation of the images, authors unfortunately

missed to include the inset image of Fig. 2. Given in this article is the correct figure.

Fig. 2 UV-Vis absorption spectrum of NSCD (black color plot) and PL emission curve at 340 nm excitation wavelength (blue color plot). (Inset- Day-light and Fluorescence Images of NSCD)

The online version of the original article can be found at <https://doi.org/10.1007/s00604-019-3270-7>
